Download your free Flight Simulator at
www.FlightGear.org

- World wide accurate terrain, land cover
- runway markings, roads, urban lighting
- VOR ADF DME aids for cross country
- ILS approaches, visibility, cloud, wind
- Accurate locations for sun, moon, stars
- Piston engine model, configurable panel
- Remote access, autopilot and waypoints

Free, GPL Open Source, but requires:

- Accelerated 3D video with OpenGL
- Linux, Windows, Irix or MacOS
