

# Simple substitute font test

Günter Milde

November 4, 2013

This document is a test that should work with any standard basic LaTeX installation. For real use cases, see the test documents setting up matching Latin and Greek or Cyrillic fonts.

Some text in OT1 encoding, the font is Latin Modern: Résumé of Nathan Söderblom.

**Some text in T1 encoding, the font is Bookmark: Résumé of Nathan Söderblom<sup>1</sup>**

Back to OT1 and Latin Modern.

**Some more text in T1 encoding and Bookmark.**

---

<sup>1</sup>Compare the result of drag-and-drop or text search for words with accented characters for OT1 and T1 encoded text.
